ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. You must be satisfied. **PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Auction Sales Are Conducted in the Following

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. Bids you send in are the maximum you are willing to pay for the coin. **WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

The coins will be on display the day of the sale at our offices and can be seen by appointment any day prior to the sale.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

IS THIS YOUR FIRST AUCTION CATALOG?

Proof coins, currency and commemoratives seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand, at the time of the publication. The estimated prices are entered only after careful examination of the results obtained in our past sales which reflect the actual and not theoretical value. In the final analysis, you, the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated were we collecting. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN.

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You In Mind. If you have any suggestions, complaints, compliments (yes we receive some now and then) we want to hear them. Having cataloged over one hundred forty successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know it all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 6c airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized, we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

COMMEMORATIVES — SILVER AND GOLD

These special coins are usually issued either to commemorate events or to help pay for monuments or celebrations that commemorate historical persons, places or things. The commemorative coins are offered in most instances by a commission in charge of the event to be commemorated, and sold at a price in advance of the face value of the piece. The unique position occupied by commemoratives in United States coinage is largely due to the fact that with few exceptions they are the only coins that have a real historical significance. The progress of the country is presented in an interesting and instructive manner on the commemorative series.

The popularity of this interesting series is reflected in the rapid advance in value the last two years with no letup in sight. Today's prices should appear very "reasonable" a year from now.

DEMAND AND LEGAL TENDER NOTES

125— DEMAND NOTE 1861 \$5 bust Hamilton, payable at Boston, fine, tiny repair at bottom. SCARCE. This note does not bear the seal of the United States treasury as does the following notes. The United States was against issuing any paper money after its sad experience with the Continental notes which gave rise to the expression "not worth a continental." Pressure of money needs during the Civil War forced the government to change its policy and issue the demand notes of 1861. These were followed by the legal tender notes of 1862 to which the seal was added. A fine specimen of this note is worth.....	75.00

Market Comments

Prices of popular United States coins have been rising sharply the last few months with many already bringing double the 1953 catalogs. In fact, we are now in the midst of running a series of ads listing hundreds of coins for what we would gladly pay from catalog to double the 1953 catalog prices. Not only have new records been set in our sales but in other sales also. Occasionally we refer to the A.N.A. sale held at New York last August where many new records were set.

Generally speaking, branch mints from 1892 to date of the dimes, quarters and halves in uncirculated are bringing from full catalog to three times catalog. Many proofs are also bringing over catalog as are the scarcer notes. BASED UPON NEARLY TWENTY YEARS PROFESSIONAL EXPERIENCE, THE COINS OR NOTES WHICH ARE BRINGING OVER CATALOG ARE THE BEST INVESTMENT. The reason these coins or notes are bringing over catalog is that they are advancing so rapidly, that by the time the catalog is published they have already advanced beyond the new prices. For instance, last year when the 1895 proof silver dollar cataloged \$100 it was already bringing close to \$150; now that it catalogs \$150 it has already advanced to close to \$200. Those who had the foresight to pay over catalog when the catalog was \$100 can now breathe a sigh of relief; while those who are still trying to buy this rarity at under catalog are still trying to obtain one.

Many coins which do not advance too rapidly in value can be obtained at substantial discounts from catalog by persistent bidding. A careful evaluation of the price list issued after each sale will keep you informed as to actual and not theoretical values.
